DIRECTOR'S DESK

Shri Anupam Shukla
(Founder & CEO)

“ As the Director, I would like to thank our valuable customers, reliable dealers and world-class suppliers. Besides, I would like to make a special mention of our staffs’ enthusiastic contribution in establishing our organization. The one thing I would like to present is that our leadership is a result of our employees. They have clearly made Enviro Lab one of the outstanding organizations. We know our highly trained engineers apply their specialized knowledge to reliably and efficiently produce high quality service.

We are now in an ever-changing market environment. In such situation, we firmly believe that “trust” is the key element in persuading customers to choose our quality products. We totally accept that “trust” can create a “Win-Win Situation” for a long deeper relationship.

Our distributed products with latest technologies and excellent service are diverse. It is easy to find them in every corner industrial activity and community living. We will continue our endless effort to serve our valuable customers.

In addition, we in Enviro Lab will intensively endeavour in environmental awareness for the purpose of preventing from climate changes and resources depletion. We are committed to preservation of the environment we live in. So in summary, I would like to thank again all those who have contributed relentless hard work and effort of the past to bring up here today and will continue to grow for years to come.”

ENVIRONMENTAL TESTING

Enviro Lab has a state of art laboratory well equipped with environmental monitoring and sampling instruments as well as well qualified personnel to carry out the environmental monitoring/sampling and analysis of the different samples of various industries.

MONITORING / SAMPLING & TESTING

- Ambient Air Quality
- Work Environment and Indoor Air Quality
- Stack Gas Emission/Fugitive for DG Set, Boiler, Furnace
- Ambient Noise level
- Work place Noise
- D.G. Noise
- Illumination/Lux level
- Soil/Sludge
- Solid & Hazardous Wastes
- Used/Waste Oil
- Waste Water
- Water of Ground, Drinking, Domestic, Demineralized, Potable, Surface, R.O. and Raw water.

ENVIRONMENTAL COMPLIANCE

- | | |
|---|---------------------------------|
| ❖ Environmental Audit | ❖ Hazardous waste authorization |
| ❖ CGWA | ❖ Plastic waste authorization |
| ❖ Pollution Consultant | ❖ E-waste authorization |
| ❖ Preparation of Half Yearly Compliance Report for Various industries | ❖ Battery waste authorization |
| ❖ NOC for Consent to Establish (CTE) | ❖ Import / Export authorization |
| ❖ NOC for Consent to Operate (CTO) | |

Equipment Library

- **Inductively coupled plasma mass spectrometry (ICP-MS)**
 - **Gas chromatography mass spectrometry (GC-MS-MS)**
 - **Microwave Digestion System (MDS)**
 - **Atomic Absorption Spectrophotometer**
 - **Gas Chromatograph with FID/ECD/NPD Detector**
 - **UV-Visible Spectro Photometer**
 - Mercury Analyzer
 - Rotary Shaker
 - Flame photometer
 - Multi Parameter Water Quality Meter
 - Digital Turbidity Meter
 - Deep Freezer
 - Hot Air Oven
 - Muffle Furnace
 - Heating Mantle
 - B.O.D. Incubator
 - Desiccators
 - C. O. D. Digester
 - Digital Weighing Balance
 - Bomb Calorimeter
 - Refrigerator
 - Digital Thermo Hygrometer
 - Magnetic Stirrer with Hot Plate
 - Centrifuge
 - Safety Shower (Eye Wash & Body Shower)
- And many more....

ENVIRONMENT CONSULTING

Enviro Lab work as a Pollution consultant and provides Environmental consulting to various industries.

ENVIRONMENT SAFETY STUDIES

- MoEF&CC, RSPCB, Consent and Regulatory compliances
- Hazard and Operability study
- Environmental due Diligence Reports

WATER AUDIT AND GROUND WATER STUDIES

- Ground water monitoring study
- Rain water harvesting study
- Installation & supply of Piezometer/ETP/STP/ZLD
- Installation & supply of water level/water flow meter
- NOC from CGWA

GLOBAL CALIBRATION & TEST LAB

Ourselves as a leading Calibration Lab for Calibration of Instruments like Thermal, Electrical, Mechanical, Pressure, Flow, Mass & all Process Control Instruments. It is an independent calibration Laboratory providing high quality reliable calibration services to industries. It is equipped with qualified and trained personnel, high accuracy master equipment's. All the calibrations are carried out under strictly controlled environmental conditions.

FEATURES :

- On Site Calibration & Environmental Testing's.
- Annual Calibration & Maintenance Contract. Computerized Recall System.
- Standard are Traceable to National / International Standard.
- Sales & Service of Process Control and Industrial Instruments.
- Trading All Instruments.

Has been assessed and accredited in accordance with the standard ISO/IEC 17025:2017 "General Requirements for the Competence of Testing & Calibration Laboratories" (Certificate no. CC-2644)

1) Mechanical Calibration Services

- >Dimension Metrology
- >Mass(Weights & Weighing Balances)
- >Pressure & Vacuum
- >Volume
- >Acoustic, Acceleration & Speed
- >Force

2) Thermal Calibration Facility

- >Temperature & Humidity

3) Electro-technical Calibration

- >Current(Ampere A)
- >Voltage(Volt V)
- >Resistance (Ω)
- >Capacitance
- >Inductance
- >Frequency
- >Time
- >Temperature
- >Energy
- >High Voltage

4) Process Control

ABOUT US - Overview

(91) 9994022700 info@globalcal

Thermal Calibration Facility

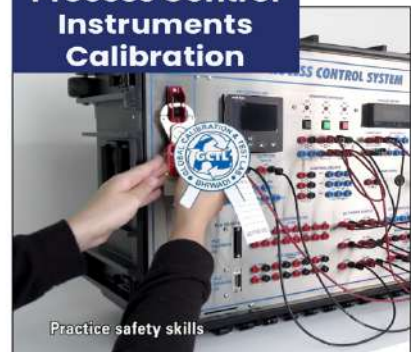

Electro-technical Calibration

Mechanical Calibration

Process Control Instruments Calibration

Mechanical Calibration: All testing equipment is serviced, repaired, maintained, and calibrated to the necessary standards by the servicing and calibration section. With the help of a group of professionals, this division makes every effort to guarantee that no testing equipment in any laboratory experiences any downtime.

Thermal Calibration: A wide range of specific thermal electrical calibration services are available from us, including calibration of furnaces, multi-meters, sensors, testers, transmitters, power supplies, thermometers, thermal cameras, and dial thermometers.

Electro-technical Calibration: Electrical measuring devices are used in a variety of industries, including the food, pharmaceutical, automotive, and manufacturing sectors. Thus, a key factor in guaranteeing the quality and safety of these sectors is the calibration of these electrical equipment.

Process control instruments Calibration: Such process instrument calibration also aids in reducing various mistakes. In order to ensure precise measurements from multiple process instruments, our organisation undertook calibration procedures.

MECHANICAL CALIBRATION FACILITIES

Dimension

- External Micrometer (Digital/Scale)
- Taper Gauge
- Internal Micrometer (Digital/Scale)
- Flush Gauge
- Depth Micrometer (Digital/Scale)
- Radius Gauge
- Depth Gauge (Digital/Scale)
- "V" Block (6"/8)
- Vernier Caliper (Digital/Dial/Scale)
- Ford Cup
- Height Gauge (Digital/Dial/Scale)
- Pressing Master Gauge
- Thickness Gauge (Dial/Scale)
- Thread Plug Gauge
- Dial Indicator (Plunger Type)
- Thread Ring Gauge
- Dial Indicator (Lever Type)
- Squire Master
- Bore Gauge (With/Without Dial)
- Steel Scale
- Plain Plug Gauge (Go/Nogo)
- Electronic Probe
- Plain Ring Gauge (Go/Nogo)
- Spirit Level
- Slip Gauge Set (Grade 0,1 &2)
- Slip Gauge Accessories (Per Piece)
- Special Zigs
- Electronic Calibration Tester (0-25 mm)
- Hole Master
- Measuring Pin Set
- Anvil Micrometer
- Feeler Gauge
- Dial Snap Gauge
- Slot Gauge
- Low Force Snap Gauge
- Profile Projector
- Bench centre
- Caliper Checker
- Angle Plate
- Comparator Stand
- Try Square
- Surface Plate
- Air Plug Gauge
- Snap Gauge (Up to 100 mm/600 mm) & many more...

Pressure & Vacuum

- Pressure Gauge,
- Vacuum Gauge,
- Pressure Transmitter & Transduce,
- Magnehelic Gauge
- Manometer &
- Dead Weight Tester etc.

Mass

- Standard Weight
- Precise and Industrial Weighing Balances,
- Push Pull Gauge/Force Gauge
- Load Cell etc.

Volume

- Rubber Hardness Tester,
- Brinell and Rockwell Hardness Tester,
- Universal testing Machine (UTM)
- Tensile Testing Machine,
- Load Cell, Torque wrench,
- Torque Indicator etc

Force

- Burette,
- Pipette,
- Beakers,
- Measuring Cylinder,
- Flask
- All Glass Ware (10 µl to 20 L)

Acoustic, Acceleration & Speed

- Sound meter (dB Meter), RPM Meter, Tachometer, Tachometer Calibrator

THERMAL CALIBRATION SERVICES

Name of Instruments

- Temperature Transmitter (-40 Deg to 1200 Deg C)
- Oven / Incubator/ Muffle Furnace (-40 Deg to 1200 Deg C)
- -ve Temp. Bath / Oil Bath / Dry Block (-40 to 1200 C)
- Temperature Gauge (Up to 250 °C)
- Temperature Mapping & Validation (-40 to 1200 °C)
- Humidity Chamber Mapping & Validation
- Thermal Stability Chamber
- Digital Hygrometer/ Dry -Wet Hygrometer (5-95% Rh)
- Digital Temperature Indicator (-200 to 1800 °C)
- Digital Temperature Controller (-200 to 1800 °C)
- PID Temperature Controller (-200 to 1800 °C)
- Temperature Scanner/Recorder (-200 to 1800 °C)
- Glass Thermometer -(40 to. 360 °C)
- RTD Sensor (-40 to 750 °C)
- Thermocouple (J,K,R,S,T,N,E,B) (-40 to 1600 °C)
- Temperature Controller With Sensor (J,K,R,S,T,N,E,B) (-40 to 1200 °C)
- Laser Gun / IR Thermometer (-40 to 1000 °C)
- Temperature Calibrator (-200 to 1800 °C)

PROCESS CONTROL INSTRUMENTS CALIBRATION

Name of Instruments

- Flow Meter/Rota Meter
- Conductivity Meter
- Lux Meter
- TDS / Conductivity Meter Digital PH Meter
- Hydrometer
- Digital Anemometer
- Digital Counter
- Sound Level Meter

Shukla E-Waste Processor

RSPCB Authorized Dismantlers Recycler

Recycling is the only way of hazardous waste disposal in a safe and secure manner. And it is possible to recycle e-waste in a hassle free manner. Recycled products or produce can be used again and again. Hazardous waste disposal will, in the long run, bring down cost of commodities.

We as a leading pollution control consultant suggest ways to handle and manage harmful e-waste. We come into picture when the waste produce is ready for disposal. We are called to take care of the e-waste and plan hazardous waste disposal in the best possible manner.

Why Us

1. Shukla E-Waste Processor is the leading in the field of e-waste recycling. We have set a benchmark in this field with our dedication, hard-work and determination to serve the nature and humanity.
2. We have developed a proper infrastructure for e-waste disposal .Our Dedicated team of experts is always finding solutions to meet day to day increasing environmental problem because of e-waste.
3. Our proper planning, management, disposal-chain ensures the safe collection, transportation, dismantling, Segregation, and disposal of E-Waste.

E-WASTE:

E-waste is a informal name of electronic and electrical waste which is discarded or near to its end life. Electronic waste management is a phrase that carries a lot of weight in the present-day context. Technology has made our lives easier, however tech products have a limited lifespan – either because we consumers like our new shiny toys or because of planned obsolescence by the manufacturers. Once their utility is served, these products are often dumped along with other waste streams or sold to the informal processors of e-waste.

PLASTIC WASTE

Recycling is always a rational choice as it requires 88 % less energy than making plastic from raw materials. It can effectively reduce plastic space taken up in the landfills and it reduces consumption of fossil fuels which is very important to avoid the ill effects of plastic waste to the environment, for which we are contributing through our efficient plastic waste management system in which we convert used plastic into plastic flakes and make it reusable for different purposes. We stop tons of plastic going into the landfills every year and we are fully determined to do more for humanity and Mother Nature.

TOTAL WASTE MANAGEMENT PROJECT

Bio-degradable waste:- Bio-degradable waste is the most common waste generated by everyone on a daily basis like food waste, paper waste, wooden waste etc.

Total waste management project is SPCB Approved facility to process biodegradable waste effectively. Where biodegradable waste is handled by skilled and trained staff and broken down by microorganisms and gets converted into compost and goes back to the nature to nourish the soil.

TOTAL WASTE MANAGEMENT

Other Waste

Other waste is an unregulated category of waste causing damage to the environment due to lack of awareness but in view of hazards arising from this it is being regulated by the concerned authority. We warmly support the initiative taken by the authority as improper handling or dumping of other waste like Metals, Glass, Cardboards damage the environment.

Why Us

Total waste management is RSPCB approved set up to handle such waste. We have developed the proper channel of collection from generator to straight up to end user under the supervision of our trained and skilled personnel.

SHUKLA E-WASTE PROCESSOR

USED OIL

We cover every sector that requires waste / used oil collection from site and not limited to – car garages, commercial garages, industries and agriculture & farming. Just to make things easy for you, if you are not sure what you require please contact us to arrange a site visit. This is free of charge and our quote is without obligation.

Reasons to use us:

- Fully comply to and adhere to all the Statutory Environmental legislation.
- Provide complete solution and assistance in management of your waste and used oils from Collection – Storage – Disposal.
- Provide onsite service to evaluate the quality of the used/waste oils.
- Professionally Driven company with high customer service standards.

We operate under an externally certified Integrated Management System meeting the requirements of key Indian standards for quality, environment and safety.

SHUKLA E-WASTE PROCESSOR

Battery Waste Recycling

There has been a massive increase in the demand for batteries, as well as an evolution and history of the battery. These electronics include cell phones, laptops, and digital cameras. Batteries power our toys and gadgets by converting chemical energy into electrical energy. The opposite ends of a battery, known as the anode and the cathode, generate an electrical circuit that conducts power to an electronic device. Once this electrical circuit is depleted, batteries should be safely disposed, but millions of batteries are tossed into the trash by consumers every year. While throwing away batteries may seem harmless, it can have dire effects on the environment. Each battery contains hazardous, toxic and corrosive materials like mercury, cadmium, lithium, and lead.

SHUKLA E-WASTE PROCESSOR

Sludge Management

Sludge treatment and disposal into the environment is increasingly regulated worldwide, driving the wastewater industry to explore new solutions for sludge disposal, incurring significant costs. To reduce such costs, sludge dewatering to reduce its volume ready for drying or incineration is common. Sludge digestion is also used to provide biogas, a rich energy source. Our monitoring solutions support optimal sludge management, from dewatering efficiency to digester control.

ECO MANAGEMENT AND PROTECTION SERVICES

When we heal the Earth,
we heal ourselves

Backed by a team of professionals, ECO Management and Protection Services has established itself as one of India's best innovative service industry in the field of CHW-TSDF. & environment friendly waste disposals for customers across the country.

We are the first project of recycling hazardous waste in Rajasthan.

Our services are second to none in the worldwide waste disposal industry.

We have transformed ourself to being the most integrated player in the Global Waste Disposal Industry within Recycling and Disposal segment.

We are pleased to inform you that we have vented and developed a
GOVT. APPROVED PAINT SLUDGE COLLECTION, TREATMENT AND DISPOSAL FACILITY

OUR MISSION

TO GAIN RECOGNITION IN THE FIELD OF LEADERSHIP
CUSTOMER SATISFACTION INNOVATION
TO BE ADMIRER AS A RESPONSIBLE ORGANIZATION AND
A SUSTAINED VALUE CREATOR

OUR VISION

TO BE AMONGST THE TOP 10 NAME GLOBALLY IN THE FIELD OF ANALYSIS,
CONSULTING ENGINEERING & EXECUTION

Recycling the Paint Sludge permits the following major benefits:-

- Eco-Friendly Treatment / Disposal of Paint Sludge
- Lower Disposal Cost as compared to Incineration / Landfill / or any other disposal pathway.
 - Quick, Better and Prompt Service.

Services We Offer

Pollution Control Consultancy:-

We are providing legal consultancy in the field of environment, communication with State Pollution Control Board for getting CTE/CTO/HWA on behalf of Industry. We are also working with more than 186 MNC's on Annual Retainer ship Basis.

Used Lead Acid Batteries:-

State Pollution Control Board authorized recycling facility for the Collection, Storage, Transportation, Reception, and Recycling of Used Lead Acid Batteries Under Batteries Rules & Hazardous Waste Rules.

HW Co-Processing:-

We are SPCB approved transporters for the transportation of HW to Cement Kilns leading to the cheapest & eco-friendly disposal in itself.

Environmental Monitoring & Laboratory Analytical Services:-

We have NABL, RSPCB, HSPCB, OHSAS & MOEF approved laboratory for conducting the Environment Monitoring like sampling & testing of Ambient Air, Water Quality, waste water testing, Noise Level, Lux Level, ETP Sludge, Grinding Sludge, Used Oil & Other Hazardous Waste Material including Heavy Metal Detection.

E - Waste & CFL:-

State Pollution Control Board authorized recycling facility for the Collection, Storage, Transportation, Reception, Recycling/Disposal of E-Waste, CFL Bulbs & Tubes etc. under E - Waste Rules, 2012 & 2016.

Services We Offer

Environment Statement, Annual Return & Compliance Report:-

We help the industries in preparation & completion of Environmental Trainings & awareness Programs also including Environment Statement, Annual Return & Compliance Report. We will pleaurably offer the services in the various areas & hence urge all the industrial associates to avail the facilities to the maximum extent & join hands in the march towards clean environment.

Discarded Container Recycling Facility :-

State Pollution Control Board authorized recycling facility for the collection, storage, transportation, reception and recycling of discarded container (Category: 33.1 Under Hazardous waste Rules, 2016).

Plastic Waste Recycling & Disposal:-

State Pollution Control Board authorized recycling facility for the Collection, Storage, Transportation, Reception, and Recycling of Plastic Waste Under Plastic Waste Rules 2016.

Paint Sludge Recycling & Disposal:-

State Pollution Control Board authorized recycling facility for the Collection, Storage, Transportation, Reception, and Recycling of Plastic Waste Under Hazardous Waste Rules 2016.

Services We Offer

Non- Hazardous / Solid Waste Disposal:-

State Pollution Control Board authorization recycling facility for collection, Disposal, Bailing, sorting, of all kind of Non- Hazardous waste/ Solid Waste like Ms Drums , Paper, Thermocol, Wood etc. under Solid Waste Disposal Rules.

Grinding Sludge Recycling and Disposal:-

Upcoming State Pollution Control Board authorized recycling facility for the Collection, Storage, Transportation, Reception, and Recycling of Grinding Sludge Waste Under Hazardous Waste Rules 2016.

EPR (Extended Producer Responsibility) Aunthorization:-

We are also complying the norms & requirements of EPR Authorization from CPCB. We are providing our professional services for getting authorization by CPCB.

Environmental Pollution Control Plants/Structure (Air/Water):-

We are providing consultancy for design & detailing of STP, ETP, CETP, TSDF, MSW, BMW, HWM, EPA, KWM, and Environmental Audit Along with communication with Rajasthan State Pollution Control Board on behalf of the Industry Under EPA.

Waste Disposal Consultancy:-

We are also providing consultancy services for waste disposal both for Hazardous Waste as well as for Non Hazardous/ Solid Waste w.r.t. to their proper storage, transportation, disposal/Recycling Practices available/method, etc. to keep environment safe & green also for ERP as per new HW Rules 2016.

Calibration & Test Lab:-

We have NABL approved Calibration & Test Lab for Electrical, Mechanical, & Thermal Calibration.

Food Waste, FMCG Waste Disposal:-

We are having SPCB authorized facility for the disposal of Expired Food Waste, Kitchen Waste, Bio-Degradable Sludge Waste, etc.

Some Of Our Esteemed Clients

ECO management and protection services is a new pioneering service industry in field of CHW-TSDF (Common Hazardous Waste – Treatment, Storage and Disposal Facility). We can consult you in complete Hazardous and Non-Hazardous solutions. We are very thankful to the Rajasthan Pollution Control Board for recognising the need and taking initiative by appointing us to setup a CHW-RECYCLING FACILITY site in Bhiwadi.

We do have our own 6 authorised vehicles for the transportation of Hazardous Waste & venturing to have authorized rail coaches for the eco-friendly transportation of Hazardous Waste with a lead to save HSD & tyre emissions.
